

Assuring Feed Safety by Following WHO Human Blood Processing Guidelines for the Collection and Processing of Spray-Dried Animal Plasma

APC, Inc. follows strict manufacturing guidelines that mirror the World Health Organization (WHO) guidelines* for safety of human blood products. This assures that spray-dried plasma is safe for use in livestock feeds. Below is a schematic outlining the processing guidelines.

**WHO Technical Report, Series No. 924, 2004
www.who.int/bloodsafety/en/*

WHO Guidelines for Human Blood Collection	APC Guidelines for Production of Spray-Dried Plasma
Donor Selection	Healthy Animals from Federally Inspected Abattoirs
Testing of Plasma Pools	Pooling, Testing and Analysis of Product
Robust Processing	Spray-Drying and Post-Drying Heat Treatment

Spray-dried plasma is a safe and effective feed ingredient.
